PREFACE

Abstract of Statistics 1993

The **ABSTRACT OF STATISTICS** of Belize is published annually, and the present issue contains data up to 1993. As in the past, these data relate to the Social, Demographic, Economic, Agricultural, and Climatic situation of Belize and are not accompanied by any commentaries because of the nature of the publication.

The completion of this publication depends crucially on assistance and cooperation from persons and agencies within government, as well as the private sector. Without this cooperation, the publication would not be possible.

Special thanks to these agencies are therefore being offered through this medium, and we beg their continued assistance and cooperation. The following members of staff of the **CENTRAL STATISTICAL OFFICE** worked arduously at the compilation, proofreading and printing of the report and are also being specially thanked:

Amir Constanza, Rafael Lima, Robert Griffith, Lynn Macdonald and William Arnold.

We welcome suggestions and comments in order to improve the publication in any way. These should be addressed to:
