

IMPORTS

In December 2014, Belize's total imports were valued at \$184.2 million, a 15.9 percent or \$25.3 million increase over the same month of 2013.

'Machinery and Transport Equipment' imports accounted for approximately one half of the increase, as purchases of aircraft jumped from \$29 million to \$42 million. Conversely, 'Mineral Fuels and Lubricants' declined steeply, from \$24 million to \$18.5 million, due largely to a fall in the value of diesel imported during the month.

Merchandise imports for the entire year 2014, totaled just over \$2 billion, up 7.8 percent or \$145.7 million over last year's total. The categories of 'Machinery and Transport Equipment', 'Mineral Fuels and Lubricants', 'Food and Live Animals' and goods destined for the Export Processing Zones accounted for most of the overall increase recorded for the year. Significant contributors included motor vehicles for personal transport, vehicles for the transportation of goods, and aircraft, which rose by a combined \$27 million during the year. Diesel purchases rose by \$15 million from \$106 million to \$121 million, notwithstanding the decline recorded in December, while imports of 'Food and Live Animals' grew by \$23 million from \$203 million to \$226 million.

The United States continues to be Belize's largest source of imported goods, with 31 percent of all goods purchased from abroad in 2014 coming from this country. Central America and Curaçao accounted for 15.4 percent and 12.4 percent, respectively, the latter being the source of all fuel imported into Belize.

EXPORTS

Domestic exports for December 2014 totaled \$28.6 million, a \$2.2 million or 7.2 percent drop from \$30.9 million last December. Of Belize's five major exports, Marine products endured the sharpest decline of \$5.2 million, with over \$4 million of this being the result of a decrease in exports of farm shrimp. Sales of orange concentrate fell by \$2.6 million, while banana exports remained relatively unchanged from December 2013. Crude petroleum, for which no exports were recorded during last December, had sales totaling \$6.7 million.

Total exported goods for the year in 2014 amounted to \$602.9 million, down \$57.2 million or 8.7 percent from last year's earnings of \$660 million. Crude petroleum was the primary cause of this decrease, with sales falling by \$37.9 million or 27 percent from \$140.1 million to \$102.2 million, reflecting both the fall in the number of barrels exported as well as the continuing decline in the price per barrel in the world market. Citrus exports were down by more than \$16 million, due largely to decreased orange concentrate exports. Sugar and banana sales increased by \$2.8 million and \$2.7 million, respectively, while marine exports recorded only a marginal increase of \$0.3 million for the year.
